NEW PRODUCTS

Easy to install and maintain, vinyl composition floors are the surfaces of choice in many demanding performance applications. Airports, public buildings, schools, hospitals, supermarkets, and industrial buildings are ideal applications for this outstanding line of VC tile. All tiles meet federal specification SS-T-312B, Type IV Composition I. Manufactured by American Biltrite (Canada) Ltd., a multi-national company. *American Biltrite is an ISO 9002 certified manufacturer—Your assurance of the highest international standards for quality.*

Karndean

Never before has the beauty of stone and wood been so faithfully captured in a 100% virgin PVC vinyl tile as in Karndean's *Residential/Light Commercial Line* (Knight-Tile), *Heavy-duty Commercial Line* (Kombination), and *Extra Heavy-duty Commercial Line* (Da Vinci).

Karndean's advanced photo-encapsulation process uses **up to 18 different colors** in some tiles. Special texture-embossing techniques gives stone tile a genuine contour and wood-plank tile a grain that is warm and satisfying to touch.

Waterjet-cut tiles, custom borders, clipped tiles, offset key squares, beveled edges, and a wide color selection of feature strips lets you achieve just the effect you want.

Other features: *recyclable, U-V light resistant, easy-to-install, does not spot or stain, requires no waxing or stripping and is easy to wipe and clean.*

To learn more about Karndean, see brochure after page 8
