

# Rubber Stair Treads

Rubber treads are the choice of architects, specifiers and designers for heavy traffic commercial applications where quality and durability are desired. Johnsonite rubber stair treads provide years of durable performance with minimal maintenance.

Available in 24 ColorMatch® colors plus 4 additional colors - Almond (34), Sahara Khaki (03), Sage (13), and Nassau Sea (88). Rubber treads have standard rubber marbelization.

All rubber treads – except “SA” Service Weight Safe-T-Grip – can be supplied in Visually Impaired designs with a contrasting colored 2” abrasive strip insert to meet ADA requirements.

**C Heavy Duty Diamond Tread\*** (Hinged)  
**VIC Visually Impaired Heavy Duty Diamond Tread**  
 Extra heavy tread with full 1/4” tread thickness front to back.

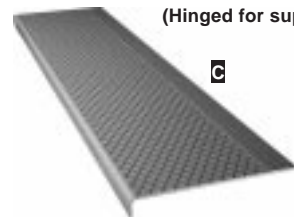

**G Heavy Duty Saf-T-Grip**  
**VIG Visually Impaired Heavy Duty Saf-T-Grip**  
 Heavy duty smooth surface tread, tapers from 1/4” to 1/8”.

**S Service Weight Tread**  
**VIS Visually Impaired Service Weight Tread**  
 For moderate traffic. Smooth surface tread tapers from 3/16” to 1/8”.

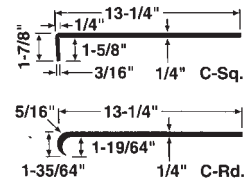

**SA Service Weight Saf-T-Grip Tread**  
 Same as S tread, but with two narrow black grit strips at the nose.

**SG Sur-Grip Tread**  
**VISG Visually Impaired Sur-Grip**  
 Diagonal chevron pattern on tread for improved traction. Tread tapers from 3/16” to 1/8”.

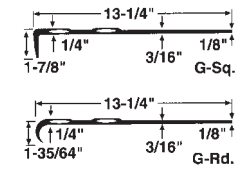

(Hinged for superior fit.)

Rubber Stair Treads					
Code	Style Name	Tread Depth	Tread Pattern	Thickness	
				At Nose	Tapers to:
C	Heavy Duty Diamond	13-1/4"	Diamond	1/4"	1/4"
G	Heavy Duty Safe-T-Grip	13-1/4"	Flat	1/4"	1/8"
S	Service Weight	13-1/4"	Flat	3/16"	1/8"
SA	Service Weight Safe-T-Grip	13-1/4"	Flat - 2 grit strips	3/16"	1/8"
SG	Sur-Grip	12-1/4"	Diagonal Chevron	3/16"	1/8"

All rubber treads are made in Square and Round nose.  
 All are made in these lengths: 3', 3.5', 4', 4.5', 5', 6'

STAIR TREADS

## To Avoid Problems With Stair Treads ...

There must be a tight fit between the tread and the step... especially at the point where the nose is snugged to the step. If the shape of the step does not match the shape of the tread, and if you cannot get a tight fit, do not attempt the installation.

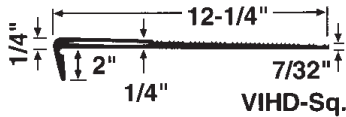

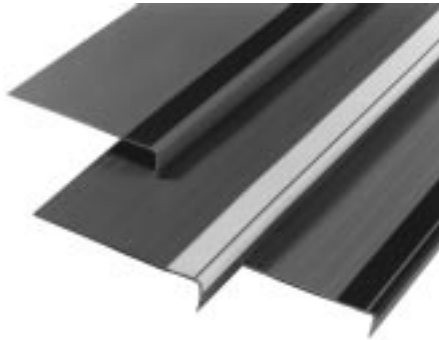

You **must use** Epoxy Stair Tread Nose Filler (JA-930) on all steps to fill all low spots on the step or the nose. If you do not, the manufacturer's warranty will be void.

Treads **must** be installed with Stair Tread adhesive; **not** with regular contact cement. Spread adhesive on both surfaces; put the tread in place on the step; then *immediately* remove the tread and allow the adhesive to dry till it is just tacky and does not transfer to a finger when touched; then install the tread and roll it firmly. If epoxy nose filler is needed to fill gaps in the nose of the step, lay the tread face down and apply the nose filler into the nose of the tread and on the first 1/2" of the tread at the nose.

Note: The nose of all square nose vinyl treads is hinged for better fit.

## JOHNSONITE VINYL STAIR TREADS

Johnsonite vinyl treads are the industry leaders, with the widest choice of styles and colors. Square nose vinyl treads have a 2" hinged nose to adapt to various stair nose angles as recommended by the ADA.

Choose any of the **24 ColorMatch® colors**, and match them with vinyl or rubber base, risers, stringers, rubber landing mats, Roundel raised design rubber tiles and vinyl mouldings in the same colors. Vinyl treads are also available in Cinnamon (76) and White (50). All treads except Household treads are made in 3, 3.5, 4, 6, 8 and 12 foot lengths. Custom lengths 4.5' and 5' are available in 150 foot minimum quantities; 8' and 12' treads are sold in full cartons only.

**Johnsonite's Visually Impaired Treads** comply with all requirements of the A.D.A. These treads all include a "clearly contrasting" color insert at the nose.

### HD HEAVY DUTY TREAD\* (Hinged) VIHD VISUALLY IMPAIRED HEAVY DUTY TREAD

An extra heavy duty commercial tread for extra heavy traffic areas. Square nose only. VIHD has a 2" wide co-extruded contrasting colored strip at the nose.

### HT SAFE-T-RIB\* (Hinged) VIHT VISUALLY IMPAIRED SAFE-T-RIB TREAD

Heavy weight tread for medium to heavy traffic areas is made in square or round nose. VIHT has a 2" wide contrasting colored abrasive strip at the nose. We stock 4 ft. HT treads with square nose in Black (40); Beige (49); and Cinnamon (76). HT is our most popular tread. 5 treads per box.

### VIVG VISUALLY IMPAIRED GRIP STRIP TREAD\* (Hinged)

Similar in weight to the HT Tread, but deeper ribbing in the full depth of the tread and with a 2" wide contrasting colored abrasive strip at the nose. Square nose only.

### ST SERVICE WEIGHT TREAD\* (Hinged)

Medium weight tread for light to moderate traffic areas. Made in square or round nose. 10 treads per box.

### HH HOUSEHOLD TREAD

A light weight economical tread for very light traffic areas. Flexible nose will bend to fit round or square stairs. Tread is only 9-3/16" deep. Household treads are made only in 18", 24" and 36" widths in Black (40) and Brown (47), and are sold only in full cartons of 36. We stock 24" in both Black and Brown.

*See the full color Johnsonite insert after page 8 for complete drawings, specifications, colors, and more information.*

\* Hinged for superior fit.
